Benefits contact information

On the pages that follow you will find contact information for various HPE benefit programs and services. These resources can answer your questions and help you access HPE benefits as a former employee or retiree.

Please note: Following the end of your employment with HPE, it's important that you keep your benefit providers informed if your address changes. Otherwise, benefits may be delayed or lost under certain programs. A change of address may also affect the availability of certain medical and dental options. Address changes submitted online through MyHPERewards or by phone to the HPE Benefits Center, as described on the next page, will be reflected on your medical, dental, and vision plans and Retirement Medical Savings Account (RMSA) program. For other benefits, report address changes to the benefit vendor for the plan(s) or program(s) in which you participate. You may need to update your address with more than one vendor.
